## ORTHODONTIC ASSOCIATE OPPORTUNITY – CALGARY, ALBERTA

---

We are seeking an Associate Orthodontist to join our thriving sole-practitioner practice in NW Calgary, with the goal of a gradual transition to ownership.

Our practice is constantly evolving, integrating new technologies and therapies to enhance patient experiences and treatment outcomes. We strongly support continuing education for the entire team and recognize that orthodontics extends beyond just straight teeth, our role also allows us to improve patients' overall health and well-being.

While we treat patients of all ages, we have a strong focus on early interceptive treatment, optimizing facial growth, breathing, sleep, and stability. In addition to conventional orthodontics, we incorporate advanced therapies for airway issues and myofunctional disorders. As awareness of our specialized treatment approach has grown, so has demand - our current new patient waitlist is 10 months, and we are eager to reduce this to a more manageable timeframe.

Two years ago, we relocated to a larger, modern space within the same building where my practice has been established for 22 years, all with a fantastic view of the Rocky Mountains. At our core, we are committed to kind and compassionate patient care and take pride in providing unique treatment modalities that enhance both health and quality of life.

If you are interested in learning more about this opportunity, I'd love to connect.

Dr. Douglas Rix
